

## Updated Country Eligibility List, Global Financing Facility Strategy 2026–2030

Effective January 1, 2026

As part of the development of its strategy for 2026–2030, the Global Financing Facility (GFF) has updated its country eligibility list to reflect changes in the global burdens of maternal and child mortality and has classified countries by their relative burdens to guide future support. The new eligibility list and classifications ensure that the GFF remains focused on countries with the highest maternal and child mortality and where intensified support is needed to address critical bottlenecks and accelerate progress on health and nutrition outcomes for women, children, and adolescents. Taken together with an assessment of countries’ potential for reform, the burden analysis that underpins the eligibility list and classifications will enable the GFF to prioritize, target, and differentiate future investments toward the highest-impact opportunities. The methodology used to inform this assessment is [available online](#).

Highest Burden	
Afghanistan	Haiti
Benin	Liberia
Burundi	Mali
Central African Republic	Niger
Chad	Nigeria
Democratic Republic of Congo	Sierra Leone
Guinea	Somalia
Guinea Bissau	South Sudan
Very High Burden	
Angola	Mozambique
Burkina Faso	Myanmar
Cameroon	Pakistan
Congo	Papua New Guinea
Côte d'Ivoire	Rwanda
Eritrea	Senegal
Ethiopia	Sudan
Gambia	Togo
Ghana	Uganda
Kenya	United Republic of Tanzania
Lesotho	Yemen
Madagascar	Zambia
Malawi	Zimbabwe
Mauritania	
High Burden	
Bangladesh	Lao (PDR)
Bolivia	Nepal
Cambodia	Philippines
Comoros	Solomon Islands
Djibouti	Tajikistan
Eswatini	Timor Leste
India
