  - Ratio of government health expenditure to total government expenditure: 5.98
  - Percent of current health expenditure on primary/ outpatient health care: 23%
  - Incidence of catastrophic and impoverishing health expenditures: 4.9% catastrophic, 0.9% impoverishing

Monitoring the Country-led Process
- Investment Case review/engagement
- Investment Case complete
- Investment Case in development
- Set of evidence based priorities financed
- Results monitoring strategy and framework in support of IC*
- Country-led multi-stakeholder platform (e.g., new or established from an existing platform)
- Government focal point
- An inclusive country platform process with CSG engagement
- Health financing reforms identified
- World Bank-funded project in support of the IC
- Private sector engagement
- Civil registration and vital statistics (CRVS) made a priority
- Management of resources and supplies/ supply chain interventions

Golden Triangle
- 80% of $15,710,487,982

Focus Areas
- WB/GFF
- Government
- Other CAs
- House of PM
- USAID
- DFID
- UNICEF
- WHO
- Global Fund
- GAVI
- Others
- Financing Gap

Resource Mapping
- Gap
- Total
- $3,150,419,605

Geographic Focus Areas
- Ethiopia

Investment Case
- Country platform (for all country-led entity)
- Country platform holds regular country meetings to discuss results arising from implementing the IC
- Civil society represented in the country platform meetings to discuss implementing the IC
- CSG representative identified at the meeting
- CSG not identified in the process

Country Platform
- Country platform holds regular country meetings to discuss results arising from implementing the IC
- Civil society represented in the country platform meetings to discuss implementing the IC
- CSG representative identified at the meeting
- CSG not identified in the process

Financing Gap
- Huge
- $3,150,419,605

Region
- Ethiopia
