**Investment Case Priorities**

1. Provide quality emergency obstetric and newborn care, including antenatal, postnatal care, and child health.
2. Strengthen the civil registration and vital statistics system.
3. Carry out adolescent health interventions to prevent mortality and morbidity during antenatal, childbirth, and postpartum periods, unsafe abortion, early and unintended pregnancy and sexually transmitted infections, and gender-based violence.
4. Establish emergency preparedness, surveillance and response, especially focusing on maternal and newborn deaths surveillance and response.
5. Promote sustainable community engagement, established, enhanced, and maintained through community structures.
6. Build an enabling environment: reinforce RMNCAH leadership, governance, and management at all levels.

Investment Case Tracking Progress

- **Investment Case Management:**
  - On track
  - Not on track

- **Investment Case Development:**
  - On track
  - Not on track

- **Set of evidence-based priorities:**
  - Fully developed
  - Partially developed

- **Results monitoring strategy and framework in support of IC:**
  - Developed and used
  - Not used

- **Country-led multi-stakeholder platform (e.g., new or established from an existing platform):**
  - Not yet established
  - Established and in operation

- **Government focal point:**
  - Not yet identified
  - Identified

- **An inclusive country platform process with CSO engagement:**
  - Not established
  - Established

**RMNCAH-N Data**

- **Coverage**
  - People living with HIV receiving ART: 30%
  - Coverage of pregnant women who received ARV for PMTCT: 39%

- **Core Impact Indicators**
  - Maternal mortality ratio: 1,072 per 100,000 live births
  - Under-five mortality ratio: 26 per 1,000 live births
  - Percent of births <24 months after the preceding birth: 15.5%
  - Percent of births among children under 5 years of age: 32%
  - Moderate to severe wasting among children under 5 years of age: 6%

**Geographic Focus Areas**

- **Focus Areas**
  - Health financing
  - Health financing indicators
  - Country needs

**Health Financing Indicators**

- **Core Health Financing Impact Indicators**
  - Health expenditure per capita financed from domestic sources: 9.13%
  - Ratio of government health expenditure to total government expenditure: 2.68%
  - Percent of current health expenditure on primary/outpatient care: 54%
  - Incidence of catastrophic and impoverishing health expenditures: 2.5% catastrophic, 6% impoverishing

- **Output Indicators**
  - Share of health in total government budget: 15%
  - Monitoring of catastrophic and impoverishing health expenditure with data less than three years old: No

- **Country has: implemented or updated a resource mapping exercise:**
  - Yes

- **Efficiency**
  - DPT3 dropout rate: 23%
  - ANC dropout rate: 15%
  - Health budget execution rate: 84%

**Resource Mapping**

- **Total** US$718,966,770
- **IDA AMOUNT** US$199,096,942
- **GIF APPROVED AMOUNT** US$16 M
