

The workshop brings together country teams comprising participants from within and outside government to:

- i. Create a common understanding of the approach of the Global Financing Facility (GFF); and
- ii. Develop a road map for the operationalization of the GFF processes at country level.

The vision of the GFF is to bring transformational changes to the system, through:

- Prioritization:
 - o Establishing evidence-based and affordable priorities to achieve RMNCAH-N outcomes; and
 - o Identifying reforms to mobilize additional resources to finance RMNCAH-N priorities and ensure progress towards Universal Health Coverage.
- Coordinated financing and implementation:
 - o Financing and implementing programmatic priorities in a coordinated manner
 - o Reforming health financing systems to:
 - Improve efficiency;
 - Mobilize domestic resources;
 - Increase and better align external financing; and
 - Leverage private sector resources.
- Learning:
 - o Strengthening systems to track progress, learn, and course-correct; and
 - o Joint learning across countries.

Audience:

The workshop targets the following 10 GFF countries:

Afghanistan	Indonesia
Burkina Faso	Ivory Coast
Cambodia	Madagascar
Central African Republic	Malawi
Haiti	Rwanda
