

The workshop brings together country teams comprising participants from within and outside government to discuss country implementation progress to date and particularly focus on strengthening results monitoring, including implementation research. Moreover, it's an opportunity for GFF countries and stakeholders to learn from each other.

Objectives:

By the end of this workshop, we aim for countries:

- Define the theory of change for the GFF in their context and monitor the essence of it.
- Share ideas, successes, challenges, and solutions related to GFF implementation and monitoring.
- Provide input into the implementation guidelines of the GFF
- Identify opportunities and next steps to strengthen the use of data in country platform meetings
- Agree on next steps for the country to further progress the implementation and monitoring of the Investment Case and relevant health financing reforms.
- Understand the GFF global results framework and information and data sharing to enhance transparency and accountability.
- Identify opportunities and priorities for implementation research

Countries:

The workshop targets the following 7 GFF countries:

Cameroon	Nigeria
Ethiopia	Tanzania
Kenya	Uganda
Liberia	

Country participants:

Each country will be requested to nominate a team of relevant participants, in line with the following:

1. Investment Case focal point
2. Health financing focal point MOF
3. Health financing colleague MOH
4. GFF Liaison
5. M&E technical person from MOH
6. M&E technical person from MOH - or HIS expert, as may be appropriate – depending on context and support needed in country
7. Research coordinator/person from MOH
8. Local academic/implementing partner doing research
9. CSO representative involved in implementation and/or monitoring
10. Donor or UN agency – engaged in financing or TA for results monitoring and/or implementation research
11. Bank TTL/task team member
12. Secretariat focal point
