**Women, children & adolescents first**

The GFF is the innovative approach to ending preventable deaths of women, children and adolescents in 2030.

- **Investing** in accessible and affordable health services can save 100,000 women’s lives every year.
- **Attracting** private sector funding including foundations.
- **Aligning** external finance.
- **Mobilizing** countries’ own funding.

**How the GFF closes the financing gap for health**

- **Trust Fund** closes $33bn annual health financing gap
- **GFF objective**: Bridging the funding gap for women, children and adolescent health and nutrition

**How $2bn Trust Fund closes $33bn annual health financing gap**
