Global Financing Facility
The Catalyst for Country-Led Health and Nutrition
Two Trends Led to the Creation of the GFF

1. **Insufficient progress** on maternal, newborn and child health and nutrition. Traditional sources of financing do not close the gap.

2. **Development assistance** is at record levels but is only a fraction of private financing. Domestic financing far exceeds external resources.

What Results Do We Want to Achieve?

Objectives
- End preventable maternal, newborn, child and adolescent deaths
- Improve the health, nutrition and quality of life of women, adolescents and children

SDG Targets
- MMR < 70/100,000
- U5MR < 25/1,000
- NMR < 12/1,000
- Universal access to SRHR services
- Reduce stunting & malnutrition
- Universal health coverage

Result
Closing the financing gap would prevent 24-38 million deaths by 2030
