

Country Platform: Role in Implementation

Transition to IC Implementation: Requirements for Success

- Optimize Country Platform composition for oversight
- Ensure implementation of the IC Action Plan
- Monitor IC Results Strategy
- Focus on monitoring and problem solving
- Use **key levers** (tools, capacity, resources)

Key Levers for IC Implementation

**Monitoring
Tools**

**Management
and Technical
Capacity**

**Human and
Financial
Resources**

Role of Multi-stakeholder Country Platform: Early Implementation

Aim:

Support implementation of RMNCAH-N investment cases linked to health financing reforms

CP meeting focus:

- ✓ Theory of change
- ✓ Results monitoring
- ✓ Implementation plan review: activity and resource tracking
- ✓ Health financing activities review

Role of Multi-stakeholder Country Platform: Early Implementation

Aim:

Support implementation of RMNCAH-N investment cases linked to health financing reforms

CP meeting focus (continued):

- ✓ Problem-solving / address challenges
- ✓ Continuous communication / awareness-raising
- ✓ Continuous alignment and resource mobilization
- ✓ TA matrix development and tracking
- ✓ Private sector participation advocacy

Role of Multi-stakeholder Country Platform: Advanced Implementation

Aim:

Support implementation of RMNCAH-N investment cases linked to health financing reforms

CP meeting increasing focus:

- ✓ Results monitoring results in results framework
- ✓ Continuous tracking and alignment
- ✓ Problem identification and resolution
- ✓ Continuous review of health financing work progress

Role of Multi-stakeholder Country Platform: Advanced Implementation

Aim:

Support implementation of RMNCAH-N investment cases linked to health financing reforms

CP meeting increasing focus (continued):

- ✓ Data-driven progress assessment and course correction
- ✓ Continuous results communication and awareness-raising
- ✓ Continuous assessment of technical assistance, private sector, implementation research, advocacy
- ✓ Annual and mid-term reviews

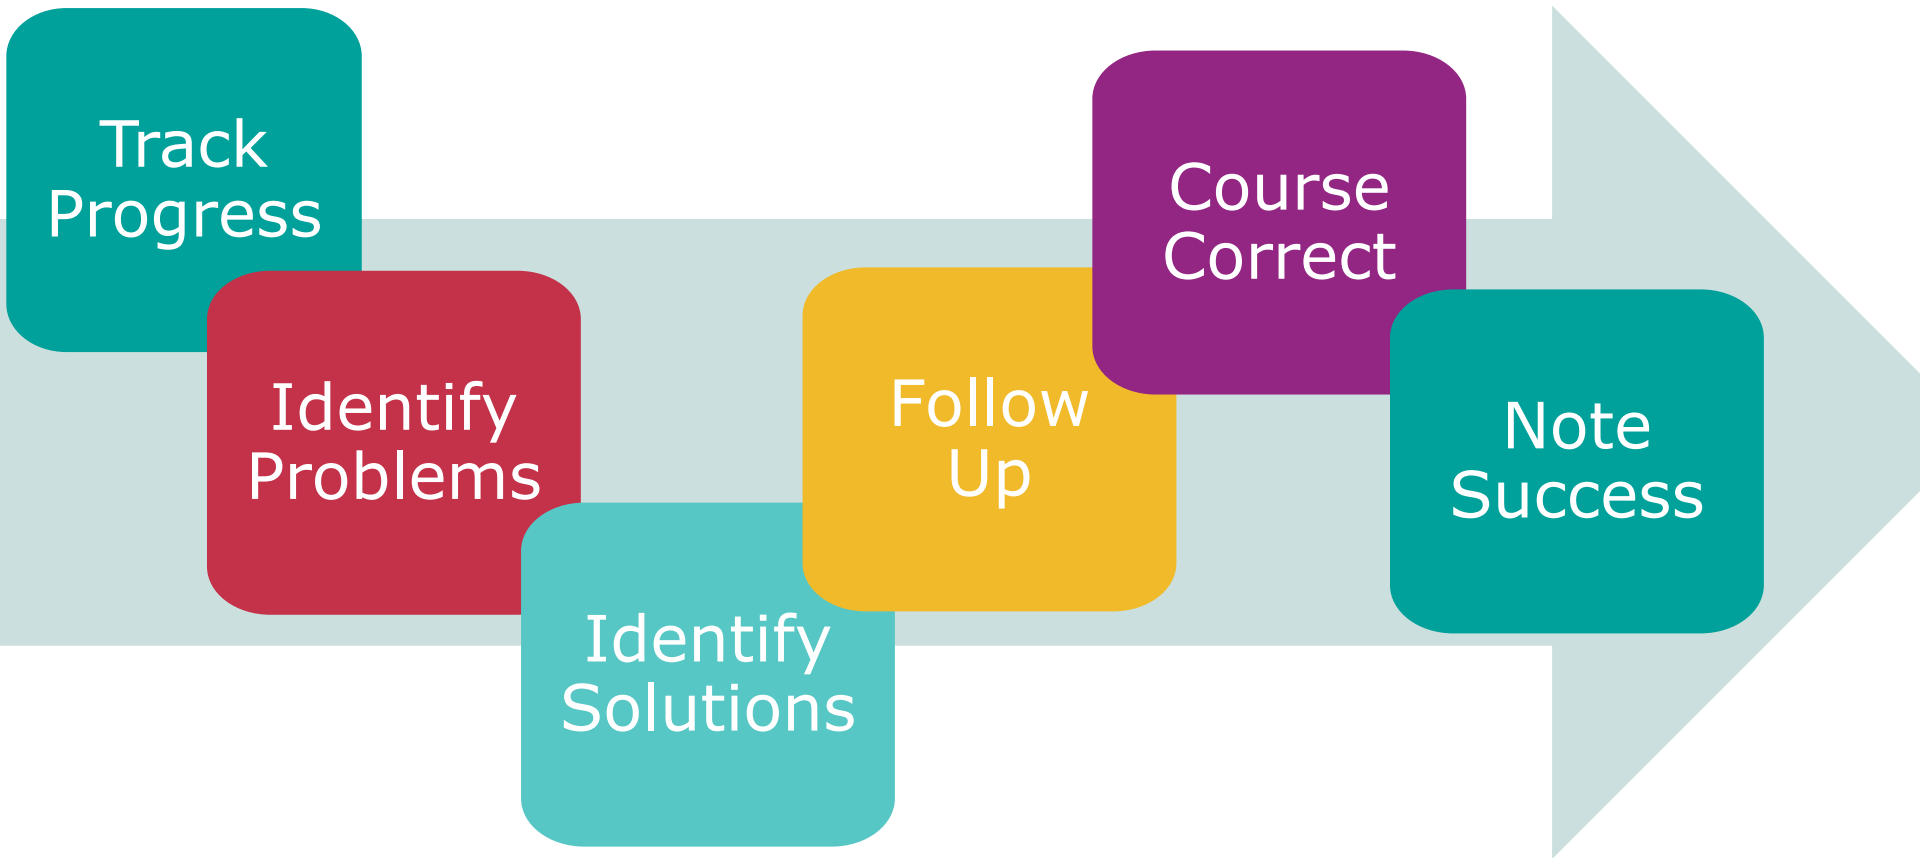

Data for Decision Making

Develop Results Strategy: Focus on Data

- Arrange to monitor:
 - Data use
 - Timeliness
 - Institutional arrangement
 - Roles and responsibilities
- Supporting health information investment plan

Data for Decision Making: Effective Monitoring Cycle

Data for Decision Making

Integrated Monitoring Approach
Improved Data Governance

Annual Data

Measure HF reforms to increase total volume of funds to RMNCAH+N & UHC: Complementary funds, DRM, Allocative efficiency & private sector

National health accounts/ Boost

Mapping financial commitment to the IC by program and regional priorities

Budget allocation systems

Integrated Financial Management Information System (IFMIS)

Private Sector fiscal space/ market scoping analysis

Routine Data

Continuous course correction. Aim is getting more results from existing resources, technical efficiency agenda and equity

Tracking expenditure/ disbursement against the IC

RMNCAH+N performance data (LMIS, DHIS 2, etc)

Quality of Care/ service delivery

Impact on RMNCAH+N Outcomes

Impact on Financial Outcomes

Data quality and use, incentive for improved outcomes

Building on existing systems and leveraging partners focused on data systems

Integrated health information systems and data architecture

Increased subnational demand for the use of quality data for decision making

Country Platform

Example: Performance and Expenditure Reporting

- Is funding being used well?
 - Are budgets being fully used? Are they being used on reasonable purchases?
 - Is the price being paid for inputs value for money?
 - Is the mix of spending optimal for producing defined outputs?
- Are interventions achieving results?
 - Does increased service coverage lead to improvements in welfare?
