

# Haiti

## Country Focus Areas

- **Introduce a paradigm shift to improve donor coordination and enhance effectiveness of foreign aid**, in support of efforts to improve utilization and impact of available resources.
- **Develop a community health strategy and implementation plan** to increase the efficiency and scale of service delivery and use.
- **Improve the efficiency of available resources in the health sector** using program-based budgeting and a transition towards managing by results.
- **Develop a strategic plan (2020-2030) for rationalizing human resources** with a particular focus on achieving a more effective distribution and mix of human resource categories throughout the country.
- **Map and track resources** in order to improve the coordination and efficiency of external resources for health, which have shrunk.
- **Improve the national supply and distribution system for medical commodities** (SNADI) to guarantee an ongoing availability and accessibility to essential medicines at each health service delivery point across the country.

## RMNCAH-N Core Indicators

Maternal mortality ratio: **529 per 100,000 live births**

Neonatal mortality ratio: **32 per 1,000 live births**

Under-five mortality ratio: **81 per 1,000 live births**

Adolescent birth rate: **55 per 1,000 women**

Percent of births <24 months after the preceding birth: **17.8%**

Stunting among children under 5 years of age: **21.9%**

Moderate to severe wasting among children under 5 years of age: **3.6%**

## Health Financing Core Indicators

Health expenditure per capita financed from domestic sources: **US\$5.79**

Ratio of government health expenditure to total government expenditures: **4.42%**

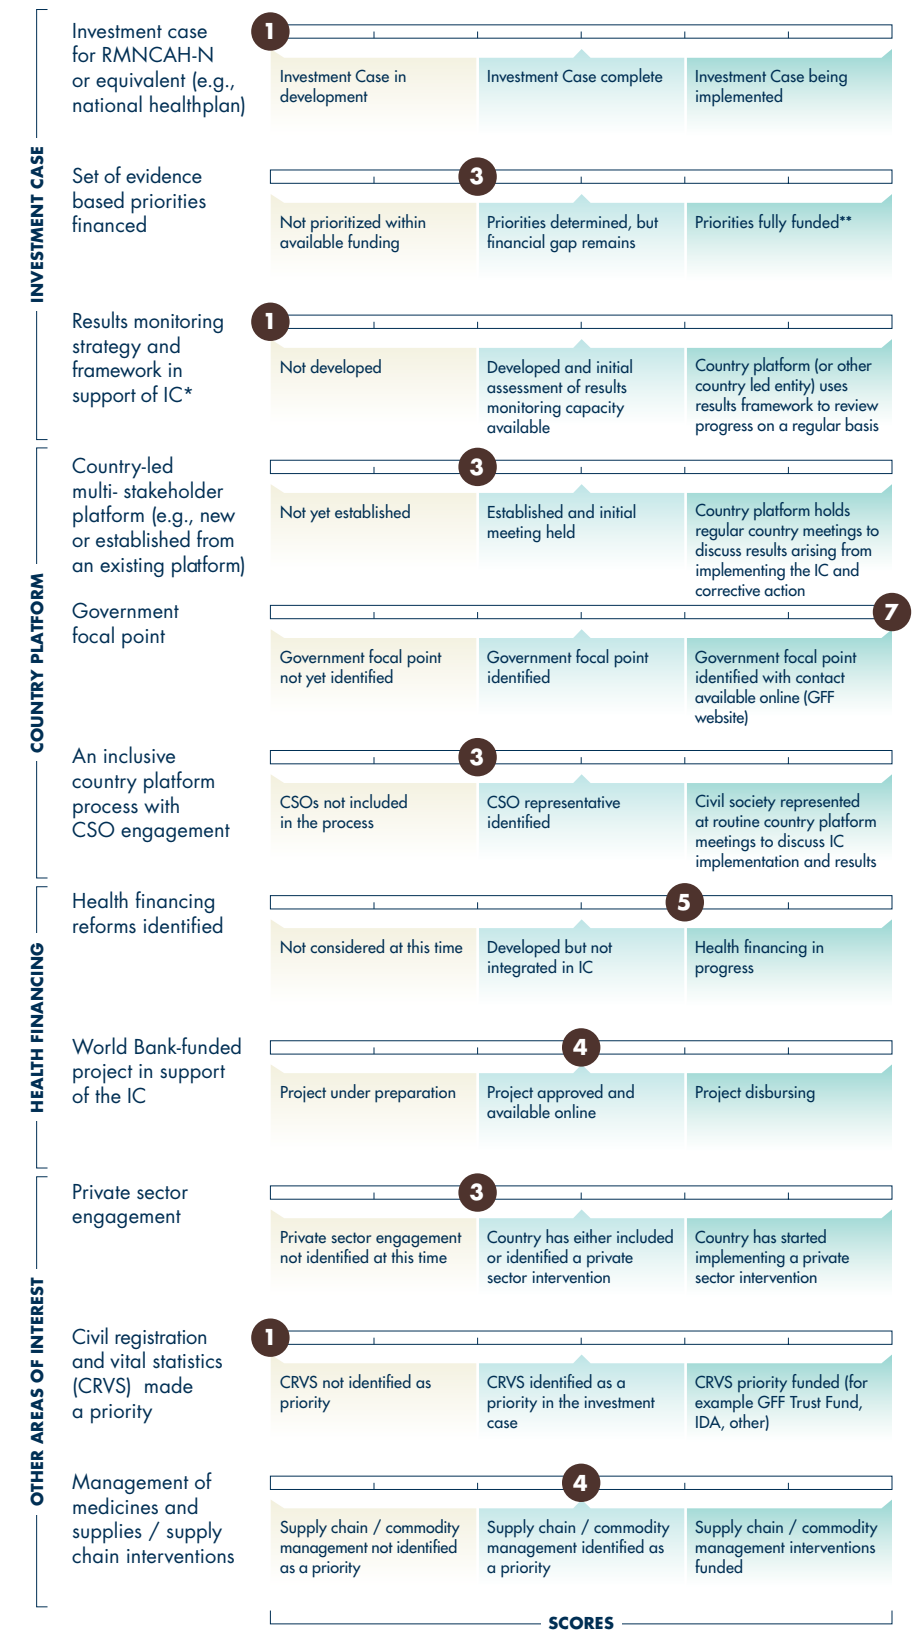

Percent of current health expenditures on primary/outpatient health care: **74.24%**

Incidence of catastrophic and impoverishing health expenditures: **11.54%** catastrophic **2.62%** impoverishing

## Resource Mapping

In July 2019, the External Cooperation division within the planning unit of Haiti's Ministry of Public Health and Population launched a resource mapping of funding—both national budget and external financing—in the health sector. Among the objectives of this resource mapping exercise is an assessment of how available financing maps to budgetary requirements outlined in sectoral strategies and plans. These strategies and plans include the country-led investment case that is under development, key reforms in the health sector, and geographic distribution of funds. Haiti plans to complete its resource mapping by 2020.

## Monitoring the Country-Led Process

\* Both included in the IC document or a separate document  
 \*\* Meaning that funding was allocated, disbursed and released – payment done  
 \*\*\* ANC4 = four antenatal care visits  
 ART = antiretroviral therapy; ARV = antiretroviral; DTP3 = vaccination for Diphtheria, Tetanus, and Pertussis; ORS = oral rehydration solution; PMTCT = prevention of mother-to-child transmission; PNC = postnatal care.
